UNDER THE ESTEEMED GUIDANCE OF

Mr.Ch. Raja Jacob M. Tech, MISTE, IAENG, IFERP
ASSISTANT PROFESSOR

COMPUTER SCIENCE & ENGINEERING

MOTHER TERESA INSTITUTE OF SCIENCE AND TECHNOLOGY
AUTONOMOUS

Accredited By NAAC with 'A+' Grade

Approved by AICTE, Govt. of Telangana & SBTET, Affiliated to JNTUH, Hyderabad.

Recognition under section 2(f) & 12(B) OF THE UGC

Act, 1956 Sanketika Nagar, Sathupally-507303, Khammam (Dist), Telangana State.

2025-2026

MOTHER TERESA INSTITUTE OF SCIENCE AND TECHNOLOGY

AUTONOMOUS

Accredited By NAAC with 'A+' Grade

Act, 1956 Sanketika Nagar, Sathupally-507303, Khammam (Dist), Telangana State.

CERTIFICATE

This is to certify that the Major Project reported on entitle **“PERSONAL EDUCATIONAL SYSTEM”** is a bonafide work done by **CH. KRISHNA KUMAR 23C65A0504, M. ASHWINI 23C65A0508, G. NEHITHA 22C61A0509, K. SRINIVAS 22C61A0525**. In partial fulfillment of the requirements for the award of the degree of Bachelor of Technology in **COMPUTER SCIENCE AND ENGINEERING** from Jawaharlal Nehru Technological University, Hyderabad During the Academic Year: 2025-2026.

UNDER THE GUIDANCE OF :

Mr. Ch. RAJA JACOB

M.Tech, MISTE
IAENG, IFERP,

Asst.Prof

HEAD OF THE DEPARTMENT:

Mr. P. MARESWARA RAO

MTech, (PH.D),
MISTE, LAENG,
IFERP
Asso.Prof

INTERNAL EXAMINER:

EXTERNAL EXAMINER:

Novahamo Technologies Pvt. Ltd.

A Division of HAMO TECH PTE. LTD. (Singapore). UAN No: 202503435G | Academic Year: 2025-2026

CERTIFICATE OF INTERNSHIP

This is to certify that

CH. Krishna Kumar

(Reg. No. **(23C65A0504)**), a student of **Mother Teresa Institute of Science and Technology, Sathupally, Telangana**, successfully completed his Major project work at Novahamo technologies pvt. Ltd.. from **19-12-2025** to **09-04-2026**. During the internship period, He worked on the project titled **"PERSONAL EDUCATIONAL SYSTEM"** where demonstrated strong analytical skills and Python fullstack integrating with AIML . We found his to be punctual, hardworking, and eager to learn new technologies. Himself motivated attitude and collaborative spirit made his a valuable member of the team . His association with our team was fruitful, and we wish his all the best for his future endeavors.

Project Duration: **19-12-2025 to 09-04-2026 (No.of Hours : 282)**

Performance Rating: ★★★★★ (Excellent / Satisfactory)

ACKNOWLEDGEMENT

We are grateful to numerous individuals who contributed to the preparation of our Real time Project Report.

We wish to express our sincere and heart full gratitude to our Real time Project guide **Mr. Ch. Raja Jacob** M.Tech, MISTE, IFERP, IAENG, Asst.Prof computer science and engineering, who encouraged us to taking up this project in sync with Industry needs.

We thank and deep sense of gratitude to **Mr. P. Mareswara Rao** M.Tech,(PhD) MIST, IAENG, IFERP, Associate Professor, Head of Department, computer science and engineering, for their constant encouragement and cooperation during the Real time Project Report.

We express our gratitude and outmost regards to **Dr. G. Uday Kiran Bhargava** M.Tech,Ph.D.. Vice-Principal, Mother Teresa Institute of Science & Technology for their constant support and encouragement during the completion of the project.

We express our gratitude and utmost regards to **Professor C. Hari Krishna** M.E, Ph.D, M.I.E.E.E, MISTE. Principal, Mother Teresa Institute of Science & Technology for their constant support and encouragement during the completion of the project.

We express our gratitude and utmost regards to **Sri. C. Samba Siva Rao** Garu secretary and correspondent Mother Teresa Institute of Science & Technology for their constant support and encouragement during the completion of the Project.

We express our gratitude and utmost regards to **Sri. K. Satyanarayana** Garu **Chairman**, Mother Teresa Institute of Science & Technology for their constant support and encouragement during the completion of the project.

We also thank the entire faculty members and fellow classmates who directly or indirectly helped us to complete this project.

INSTITUTE VISION

To be a state-of-the-art centre for learning with a social commitment transforming the youth into dynamic professionals.

INSTITUTE MISSION

IM₁: Foster unmatched excellence in professional education

IM₂: Provide quality eco-system to inspire learning aligned to needs.

IM₃: Inculcate ethical and moral values to groom good citizens.

IM₄: Involve in activities with team spirit and collaborations towards nation building.

DEPARTMENT VISION

To be recognized as a contributor of Computer Science and Engineering proficiency and enable entrepreneurship, innovation, and values.

DEPARTMENT MISSION

- DM₁: To strengthen the core competence in Computer Science and Engineering through analytical learning.
- DM₂: To develop personal and professional skills and commitment to lifelong learning..
- DM₃: To uplift innovative research in Computer Science and Engineering to serve the needs of Industry, Government and Society.

MOTHER TERESA INSTITUTE OF SCIENCE AND TECHNOLOGY AUTONOMOUS

PROGRAMME EDUCATIONAL OBJECTIVES(PEOs)

- PEO 1: Develop innovative computing products and complex solution techniques by utilizing
Strong technical and critical thinking.
- PEO 2: Demonstrate professionalism, ethical attitude, teamwork, and leadership skills with
lifelong learning.
- PEO 3: Exhibit effective communication skills and social concerns to meet the challenges of
Software industries.

PROGRAM SPECIFIC OUTCOMES(PSOs)

- PSO1: An ability to specify, analyze & design efficient computer applications that meet the requirement
And limitations
- PSO2: An ability to implement algorithm for a secure and reliable data communication system.
- PSO3: Able to excel in competitive exams Zest for higher studies with technical competency.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING(AI&ML)

Course Outcomes for Project work(Cos)

CO#	CO Statement
CO1	Demonstrate the knowledge and skills of a professional engineer to Make a project.
CO2	Identify latest information related to the project from various sources To analyze the project.
CO3	Apply knowledge and demonstrate to manage project in multidisciplinary areas. Develop a prototype/model of the project by Distribution no flasks among the team
CO4	Develop a team for carrying the project and perform documentation effectively. Create a good report of the project as per the guidelines And present to the panel of experts
CO5	Create abstract for given project by identifying the requirements and prospective solution. Analyze the results of the designed module or circuit.

Under the Guidance of
Mr.Ch. Raja Jacob M.Tech,
MISTE, IAENG, IFERP
Asst.Prof

Department of Computer Science and Engineering(AI&ML)

PROGRAM OUTCOMES(POs)

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
8. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

9. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
10. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
11. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

ABSTRACT

The Personal Education System is an advanced digital solution developed to enhance the effectiveness of self-learning through a structured and personalized approach. In the modern educational environment, students often face challenges in organizing study materials, tracking their progress, and maintaining consistency in their learning process. This system addresses these challenges by providing a centralized and intelligent platform that integrates essential learning tools into a single interface.

The system enables users to manage academic resources, set learning goals, monitor progress, and organize study schedules efficiently. It is designed with a focus on usability, flexibility, and accessibility, allowing students to interact with the platform seamlessly across various devices. By combining features such as resource management, progress analysis, and task planning, the system promotes disciplined and goal-oriented learning habits.

The primary aim of this project is to empower students to take control of their learning journey by improving organization, enhancing productivity, and supporting independent learning. This project demonstrates how modern technology can be effectively utilized to create a smart learning environment that improves academic performance and prepares students for continuous self-development.
